

Super Armor

Durable Webbing Chafe Guard

Super Armor-VE is a robust flat polyester strap pad specially designed for harsh environments, effectively protecting ropes from damage caused by rough and abrasive surfaces, such as wedges, drill bits, and more. The durable Velcro scratch strap is securely sewn onto the sleeve, ensuring quick and easy installation and removal. This provides users with an efficient protective solution, guaranteeing the longevity and performance of ropes even in extreme conditions. This product is commonly added to the eyes of working lines and can be installed on the rope as well.
